

HERITAGE COLLECTION

THE GENESIS

Degré 7 is a brand founded in Chamonix in 1982 by Patrick Vallencant, an extreme skier known for skiing the north face of Mont Blanc.

Since 1982, Degré 7 products have been designed, created, and drawn in France. Imagined by mountain enthusiasts, the brand's expertise—from design to prototyping and modeling—allows us to create products with optimal quality and technicality.

COLORFUL

RANGE

The Heritage Collection from Degré 7 is much more than just a range of products. Each piece tells a story, blending tradition and modernity, with vibrant colors reflecting a rich heritage.

Patrick Vallençant, in collaboration with stylist Ingrid Büchner, also innovated with colorful clothing, thereby shaping the brand's unique DNA.

By reintroducing Degré 7's historic colors, we are reconnecting with the brand's origins and bringing back to life the shades that have defined its history.

EVOLUTION

1990

2025

The Degré 7 brand made its debuts with this iconic anorak in the 90s: a technical, avant-garde piece. In this Heritage collection, we modernize this historic piece with the addition of new materials and a new color palette. Its original fit and timeless style make it the must-have of this 2025 edition.
